Stocks Stronger and More Active-Large Dea in the Vanderbilts.

Jersey Central and North Pacific Ali Active-Gold Going to Italy.

GENERAL GOSSIP.

New York, May 7.-Mr. Vanderbill friends say that he was undoubtedly a buyer of New York Central, Lake Shore, and Michigan Central on Saturday, and also that he has not sold any of these stocks for a year. William Heath & Co. say London probably sold 15,000 shares of New York Central here Saturday morning, but the steck was absorbed by the short interest. Supt. Tillinghast, of New York Central, says the business of this road was never larger and more profitable than at present, and he does not believe that Mr. Vanderbilt has parted with any of his holdings. The Mills people say that those people who have been selling New York Cen-tral in anticipation of reduced dividends this year will be greatly mistaken, and there is official assurance to the contrary.

The trunk line people are much gratified over the large increase in east bound freights last week, which reached over 36,000 tons,

last week, which reached over 36,000 tons, owing to the reduced rates. The Michigan and Fort Wayne lines carried the largest percentage (23 per cent, each), and the Grand trunk came next, with 20 per cent.

The bear party is lessening, and not nearly so aggressive, and Worshoeffer is now the main leader, as Cammack has retired, and sails for Liverpool on Wednesday.

Gould and Sage are expected home next Saturday and its said they have been quiet buyers here ever since they left, especially of Union Pacific. Mr. Gould's friends declare he will inaugurate a sharp bull campaign and probably bring the Denver and Union Pacific interests together as a starter.

It is calculated that if the savings bank bill is signed by Gov. Cleveland and becomes

bill is signed by Gov. Cleveland and becomes a law, government bonds will decline and good dividend stocks will be bought by the savings banks in their stead.

Villard's friends says he will return here on

savings banks in their stead.

Villard's friends says he will return here on the fifteenth instant, when a sharp advance will follow in Northern Pacific and Oregon Transcoutinental.

The bulls say that the Vanderbilt retirement is already discounted, and the commission brokers report a steady increase for bonds of all kinds. Large London orders cabled Friday for \$4,000,000 of bonds offered by Lanier, and they will be taken before Wednesday. It is said the Astor's own about \$1,000,000 of these West Shore bonds. The West Shore opens for traffic to Syracuse June15 H. N. Smith and D. P. Morgan said Saturday evening they expected a higher market today. Smith stops at the West End (Long Branch) for the summer. Two per cent. is Bid for the Canada Pacific, August dividend, and insiders say it will be \$2\frac{1}{2}\$. The talk is 70 for this stock within ten days.

The buyers of New York Central are Godet, Leavitt, Kirkner, Barton, Hollins, and Marks. Herrick offered 3,000 shares of New York Central at 121, seller 60. In Lake Shore the buyers were Hollins, S. V. White, Campbell, Cecil Ward & Co., and Truman. Villard and Oakes have reached the end of their line at Helena, Montana. Two fundred and thirty miles of the Montana division is yet to be constructed.

It is reported that Keene has sold puts on

REVIEW OF THE DAY'S TRADE. Stocks opened stronger and more active, the largest dealings being in the Vanderbilt's and Jersey Central. D. P. Morgan's brokers were prominent buyers of Jersey Central. New York Central opened at 1224 and rose to 123, and Lake Shore advanced from 110s to 123, and Lake Shore advanced from 110% to 111. Herrick offered several thousand shares New York Central at 121, seller 60, but no takers. Canada Pacific was active. The largest buyers were Oppenheim, Probst, Asiel & Co., and Warmser. Union Pacific rose 1. Eailway bonds were strong, with increased demand for investments. Stock loaned at 4 to 5, and New York Central lent flat money at 43 to 5. Sterling quiet and steady.

to 5, and New York Central tent hat money at 4½ to 5. Sterling quiet and steady.

On the second call prices were fractionally above the best figures of the morning, but the trading was limited. Most of the business was in Jersey Central on a rumor that the company would pay 5 per cent. dividend the first year. It was leased by the Reading company.

The Northern Pacific stocks were firmer on

THE NIGHT LODGING HOUSE.

Charity During the Past Four Months.

Mr. A. S. Solomons, vice president of the Washington Night Lodging House association, has made a report to the district commissioners showing that the house has lodged and fed during January 482 persons; February, 440; March, 431; April, 440; whole number previously reported, 28,239-making in all 30,032, of whom 7 per cent. were colored, and 12 per cent. could n ot read and write.

The house supplied to these 60,064 meals, besides additional meals given to many indigent persons who had lodgings of their own-for this charity never refuses food to

own—for this charity never refuses food to any deserving needy person.

The lodging house usually closes for the season on the first of May, but this year the demands upon it by a good class of persons, mostly mechanics seeking work and soldiers who come hither to adjust their papers to enable them to draw pensions, has been so great that it has been determined to keep open the house a month longer.

The public should know that this is the only lodging house in the United States, or probably throughout the world, where under proper regulations and restrictions deserving

only lodging house in the United States, or probably throughout the world, where under proper regulations and restrictions deserving persons receive for three consecutive nights, or longer if necessary, lodging, food, and bathing—which is positively insisted upon—all free of charge, and as good as can be had in the average boarding house.

The trustees have made purchase, and are now occupying a commodious brick house on Twelfth street near Pennsylvania avenue, next door to the fifth precinct station house. They have agreed to pay for the premises the very low price of \$4,500, and expect to expend \$500 in addition to make the place completely adapted for the purpose. As this is one of the most practical and useful charities in the district, and is run upon such economic principles that it seems hardly possible that so much good can be accomplished by the expenditure of so little money, the trustees expenditure of so little money, the trustees expenditure of so little money, the trustees expenditure of so little money, the purchase of the building which is now permanently established as a lodging house.

THE COURT RECORD.

Important Amendent to the Rule in Reference to Accounting.

The Attachments In the Howgate Cases-Prisoners Sentenced-New Sutts.

AN IMPORTANT BULE MADE. The court in general term vesterday amended the fifty-fourth rule as follows:

In all settoms at law brought or hereafter to be brought grounded upon account, in which it may be necessary to examine and determins upon accounts between the parties, the court, in its discretion, at any stage of the case, may order the accounts between the parties to be audited and stated by the auditor of the court, or by a special auditor or anditors to be appointed by the court; and when such order shall be made in any case the course of proceedings before such auditor or auditors shall be made in any case the course of proceedings before such auditor or auditors shall be the same therein, and such auditor or auditors shall be the same therein, and such auditor or auditors in the premises as it similar cases referred, to the auditor in chancery by the court, sitting inequity. When such audit shall be completed the auditor or auditors thail state and file the report and account in the clerk's office and give notice to the parties of their attorneys, and the clerk shall note the time the same is filed in the decket, and at the expiration of thirty calendar days thereafter, judgment may be entered on motion of either party in accordance with such report and accounts, either by the court or by a judge at chambers, unless exceptions are fined therein and the party so excepting shall state therein definitely, in precise and distinct terms, the grounds of auch exceptions, and shall point out partieularly the item or items in such reports and accounts to which they are taken, and shall annex thereto a certificate of counse litait in his opinion the matters of law therein stated are well founded in law and an affilevit that such exceptions are not interposed for delay and that they are true in point of fact; and shall serve a copy thereof on the opposite party or his attorney.

When such exceptions are so filed the court shall enter the case on the trial calendar of that term in its proper place and the issues made by anch exceptions an The court in general term yesterday amended the fifty-fourth rule as follows:

THE HOWGATE ATTACHMENT CASES. In the court in general term yesterday the two cases of United States vs. H. W. Howgate were decided, the chief justice delivering the opinion of the court.

The first decided was the motion to quash

the attachment in behalf of Mrs. Houghton, who had purchased some of the property, and whose deed had been executed anterior to levying the attachment. In this the judgment below, quashing the attachment so far as it related to this property, was affirmed. The other motion decided was the motion wade to could be constituted by the course of the course The other motion decided was the motion made to quash the attachment on the ground that the suit not having been brought by the district attorney the attachment was illegal. The chief justice announced the opinion of the court, sustaining the judgment below overruling the motion to quash. He said that this was a curious case, not being between the parties, but between the counsel. It is insisted for the defendant (and he ought to be here in person) that all the pleas of the republic should come through one channel—the district attorney; that the law makes it the duty of that officer to take exclusive control of all the interests to take exclusive control of all the interests of the United States in the district. Is that so? Will this republic put all its interests in the keeping of a single officer who is liable to become sick or dio? He did not believe it, and it was not the practice to do as, nor to jeopardize its interests in that way. In this case the government had the right to employ Mr. Cook or whoever it pleased. Mr. Cook was a member of this bar, had the right to ap-pear, and the attachment would remain.

JURORS DISCHARGED. The jurers who have been serving in the special criminal court were discharged for the term yesterday, and the murder trial set for to-day will go over to the June term of the

criminal court. ACCOMMODATIONS FOR FEMALE PRISONERS, The president of the Women's labor league complained that the accommodations for female prisoners were not sufficient. She referred to the case of the French woman, Pom-mard, who had been indicted several months ago for grand larceny in stealing jewelry and ago for grand larcedy in stealing lowery and wearing apparel from the house of Gen. Sturgis, at soldiers' home, who, she said, had been looked up in a cell with about ten male prisoners, black and white. It is understood that Mrs. Smith desires a matron appointed to look after female prisoners, but there is no fund out of which one could be paid.
